WORK EXPERIENCE

Ghana Music Live

Remote

Backend Engineer

Dec 2022 - Mar 2023

- Developed, designed and implemented new databases schemas for new Endpoints and also API endpoints as a part of an ongoing project
- Improved the quality of the legacy code base for the current project while transforming client needs into new product features.
- Responsible for implementing User news models, bookmarks function and vendors models.
- Worked with Frontend team to better deliver content to the frontend application.

Frontend Developer

Feb 2023 - Sep 2024

- Maintained an admin panel for managing user, administrative accounts and content for the Ghana Music Live Platform
- Implemented new features and improved user experience using React and NextJS
- Collaborated with other backend developers to integrate the Admin panel with the company's API and Server
- Implemented user statistics and analytics tracking of users for the Admin panel

Evans Brothers Publishers

Ibadan, Nigeria

Full Stack Developer

Mar 2024 - Present

- Developed a mobile and web app for creating book quotations and estimations, improving accuracy and reducing calculation time.
- Led the design and implementation of backend and frontend components, collaborating with a team of developers across different areas.
- Built and deployed a CI/CD pipeline to streamline the development process, enabling seamless updates and deployment iterations.
- Worked closely with stakeholders to translate business requirements into technical features, ensuring product alignment with business goals.
